

Owen Quinn

**Cloud Computing,
Analytics & Security
for Industry Level 5
Foundation Degree Higher
Level Apprenticeship**

Re-Gen Group, Newry

Owen chose the HLA pathway as progression from the Level 3 qualification in Computing he achieved at SRC.

His favourite part of the course has been the practical content and he has enjoyed the small

class sizes and having no tuition fees to pay. Owen is also very complimentary of the staff at the College and has appreciated lecturing staff going out of their way to ensure everyone understands all the content on the course.

Owen has also been afforded many opportunities with his employer Re-Gen, where he gets to work on projects relevant to his course.

Applications are open for the Cloud Computing, Analytics & Security for Industry Level 5 Foundation Degree Higher Level Apprenticeship

This course is validated by the Open University.

Upon completion, graduates are eligible for progression onto the BSc (Hons) Computing for Industry Degree HLA at SRC.
