

# Deli Lites

Southern Regional College (SRC) and Deli Lites Ireland have established a strategic partnership focused on staff training, innovation, and skills development. Working closely together, SRC supports Deli Lites to meet current and future workforce needs while strengthening organisational and individual learning.

Through SRC's Business Support and Innovation Centre, the partnership delivers tailored training solutions that help Deli Lites remain competitive and continue to grow. A purpose-led organisation committed to sustaining people and planet, Deli Lites continues to invest significantly in its workforce and operations, alongside major investment in automation and job creation.

Each programme concludes with an annual celebration event, where learners are presented with their certificates and their achievements. Looking ahead, Deli Lites plans to engage in a range of SRC training programmes, including Leadership and Management, Coaching and Mentoring, ESOL, Computing, and advanced Automation and Mechatronics, supporting long-term growth and a strong culture of learning. These are formally recognised, reinforcing commitment to continuous professional development.
